Lubricants

FUKKOL VITEX QUENCHING OIL
QUENCHING FLUID 6112
Anti Wear Hdraulic oil
Air compressor oil
slide way lubricants
spindle lubricants
wire rope and chain lubricants
pneumatic lubricants
thermo oils
mineral white oils
Gear oils
Circulation oils
turbine oils
silicone oils

MOSS OIL

Anti wear Hydraulic Oil — 15/22/32/46/68/100/150/220

HYDRO GUARD

Fire Resistant Hydraulic Fluids — ISO46

FUGAL

Oil Thermo Oil — 32/46/68/100/150

G.CK

Compressor Oil — 32.46.68.100

26th ANNIVERSARY

SGS AMSOIL RoHS

NAFTHTEK

Thermo Oil — 10N/25N/45N

FUKKOL NAFTHTEK Transformer Oil is especially refined light mineral oil. The oil is based with an excellent inhibitor of high temperature oxidation and also the high-molecular oxidative deposition. The formation of oxide, acid sludge and other harmful matter will be prevented effectively and the service life of the oil will be extended greatly.

Quenching Fluid 6112

FUKKOL Quenching Fluid 6112 is a polymer type quenching fluid, which is mainly used for metal quenching. It is a kind of polymer solution with excellent properties such as high cooling speed, high cooling capacity, high stability, no pollution, safety, etc. The cooling speed of FUKKOL Quenching Fluid 6112 is easily controlled by adjusting the concentration of the solution. The recommended concentration is 10%-20%. Mainly used in quenching.

FUKKOL VITEX QUENCHING OIL

Fukkol is a fast quenching oil with high flash point, good stability and long service life. It is a high-speed quenching oil. It can ensure the quenching hardness of the workpiece, reduce the deformation and cracking of the workpiece, and improve the service life of the workpiece. It is mainly used in the quenching of various mechanical parts and tools.

HOCEO

Vacuum Pump Oil — 32/46/100

HOCEO SERIES OIL is a kind of highly refined mineral oil, and is suitable for rotary vane vacuum pumps, oil-sealed mechanical vacuum pumps, diffusion pumps, etc. It has low vapor pressure, high stability, low volatility, and is not easy to decompose. It can ensure the vacuum degree of the pump and prolong the service life of the pump.

GEARFUL

Gear Oil — 32/46/68/100/150/220/320/460/680

KASTLUB

High Temperature Resistant Oil — 32/46/68

CYCLUS

Circulating Oil — 32/46/68/100/150/320

- Gearbox
- Lightly loaded gear

SLIDELUB

Slide Way Oil — 32/68/220

KAMENT

Cutting Oil — 5/10/15

GASTO

Pneumatic Tool Lubricants — 5/10

High performance lubricant for various types of tools which is compatible with rubber, nylon and other plastics and becomes emulsified when in contact with water. It has anti-corrosion and fogging agents.

MORGS

Spindle Oil — 2/5/7/10/15/22

Specially prepared with mineral oil as base oil, it has excellent anti-wear performance and low viscosity, which can ensure the normal operation of the spindle under high speed and low load. It is suitable for various machine tools and other equipment.

RTWEST TECH

Thermo Oil — 32/46/68

FUKKOL TWEST-TEC Thermo oil is made of high performance mineral oil and other chemical additives, which can ensure the long service life of the oil and the stable operation of the equipment. It has good effect in lubrication and heat transfer.

HP

Compressor Compressor Oil — 32/68

FUKKOL HP series compressor oil is a kind of oil for the lubrication of the moving parts of the air compressor. It has the characteristics of high viscosity index, low volatility, high oxidation stability, and long service life. It can be used in the lubrication of various types of air compressors, and is also suitable for the lubrication of other equipment with the same or similar operating conditions and high overall temperature.

THERMKO

Thermally Stable Oil — 32/46

Thermally stable oil is a kind of lubricating oil with high viscosity index, low volatility, good oxidation stability and long service life. It is mainly used in the lubrication of various types of air compressors, gas-fired compressors and other equipment with high overall temperature.

WHITE OILS

Food Grade Oil — 5/10/15/22

Food grade oil is a kind of food processing machinery lubricating oil, which is used in food processing machinery and equipment in food production and processing workshops.

SF

Spindle Oil — 50/500/1000/5000/12500/60000/100000

FUKKOL SF Series spindle oil is a kind of high-speed spindle oil. It has excellent anti-wear additives and is suitable for various types of machine tools, such as lathes, milling machines, drilling machines, grinding machines, etc. It can also be used in other mechanical equipment with similar operating conditions and high speed requirements, such as hydraulic systems, gearboxes, and other lubricating equipment, and has a long service life.
