TECHNICAL DATA SHEET

RUSTKING W

Description:

The high RUSTKING W is a new technology, high performance, environmentally friendly water-soluble antirust liquid. Containing highly selective rust inhibitor, RUSTKING W can form a very light soft film, which can only be supplied by solvent based antirust oil.

Purpose :

It is suitable for the antirust of colored and black metal

Performance characteristics:

- Water solubility is easy to clean
- Free of heavy metals
- Non volatile solvent

Products Code	Packings	Capacity
I100139-4L	Can	4L
I100139-18L	Pail	18L
I100139-200L	Drum	200L

Typical Physical Properties:

Appearance	Brown red liquid
Smell	No special smell
5% water solution pH value	8.3~9.5
5% concentration of aqueous solution	1.9~2.5

Matters needing attention:

1. Pay attention to sealing and preserving oil products
