FUKKOL

TECHNICAL DATA SHEET

LUBRICATING SERIES FUKKOL P.T.F.E. LUBE

Description :

This product is a high quality high temperature thimble oil, with high quality lubricity and viscosity under high temperature and high pressure. It provides a good dry lubrication film for the surface of all kinds of materials.

Products Code	Packings	Capacity
I22348-500ML	Can.	500ML
I22348-18L	Pail	18L
I22348-200L	Dum.	200L

Application :

It is used for precision instrument, clock, high speed textile machinery, factory conveyor belt, electric motor (engine), guide rail, vending machine, rolling and sliding device, bearing in high temperature environment.

Typical Physical Properties:

APPEARANCE	ODOR	FLASH POINT °C	TIMKEN KG	VOLATLLE %	DENSITY 25 °C , g/cm ³
Colorless - slightly white transparent	Solvent odor	<-7	>330	95-97	0.65-0.68
