# TECHNICAL DATA SHEET

## LUBRICATING SERIES FUKKOL EJECTOR PIN LUBRICANT

### Description :

This product is a multi-purpose lubricant, which is specially formulated to resist corrosion, abrasion and lubrication for thimble of plastic injection molding machine.

Products Code	Packings	Capacity
I36686-450ML	Can.	450ML
I36686-18L	Pail	18L
I36686-200L	Dum.	200L

### Application :

The thimble is suitable for all kinds of plastic injection molding machines.  
Provide continuous lubrication in operation.

### Typical Physical Properties :

APPEARANCE	ODOR	FLASH POINT °C	TIMKEN KG	VOLATILE %	DENSITY 25 °C , g/cm <sup>3</sup>
Water clear	Solvent odor	<-7	>330	95-97	0.65-0.68
