FUKKOL MOULD CLEANER**Description:**

This precision electrical cleaning agent is a mild environmental friendly cleaning agent that does not damage plastics, has low flash point and does not contain CFC113 or three chloroethane. This product has a rapid volatilization and can be widely used in clean and highly sensitive electronic equipment and equipment. It can also be used in mechanical equipment and moulds. It can effectively remove all kinds of stains and keep the equipment stable. Regular use of this product can be used for repair and maintenance, which greatly saves manpower and cost of replacement parts.

Application:

Can clean all precision electronic instruments and metal mold equipment, such as: contact, circuit floor, switch, telephone, PC component, motor (engine) relay, generator, magnetic head, current circuit breaker, plug and socket, electrical appliance, connector, electromechanical combination, laboratory instrument and so on.

Products Code	Packings	Capacity
I11166-500ML	Can.	500ML
I11166-18L	Pail	18L
I11166-200L	Dum.	200L

Typical Physical Properties:

APPEARANCE	ODOR	FLASH POINT °C	BOILING POINT °C	VOLATILE %	DENSITY 25 °C , g/cm ³
