VERA 8011 (L) ALUMINUM STAMPING OIL

Description:

FUKKOL VERA 8011 (L) volatile punching oil is suitable for punching, stamping, cleaning, and volatile multi metal processing. It has good effect on the punching and stamping of aluminum and thin steel sheets. It is suitable for workpiece processing requirements with no residue, no cleaning, anti-oxidation and anti oxidation conditions. Strict production technology can effectively protect machinery and equipment and operate workers' body. High performance lubricity and very low friction coefficient provide effective protection for moulds.

Application:

It is suitable for high-speed punching and punching of aluminum and steel sheet metal without residue.

Products Code	Packings	Capacity
I100176-4L	Can	4L
I100176-18L	Pail	18L
I100176-200L	Durm	200L

Performance characteristics:

- No chlorine, sulfur, phosphorus, no corrosion.
- It does not contain amine, nitrite, polychlorinated biphenyls and ozone deplete chemicals.
- Biological stability, long working time, no residue.
- Top synthetic extreme pressure additive.

Typical Physical Properties:

APPEARANCE	VISCOSITY 40°C mm ² /s	FLASH POINT °C	RELATIVE VOLATILITY %	DENSITY 25 °C , g/cm ³
Colorless Transparent Liquid	0.5~1.5	<0	13	0.66~0.8
